Memo (Contd.) 1/2 Cont?

"Work Inspectors"

The report from Kurnool has since been received

All the Dy Commrs are unanimous in their opinion that the establishment should be permanently retained for the efficient supervision of the Distt & Municipal works. They however differ as regards the rate of allowance at which the Inspectors have to be paid for maintaining a horse and the necessity of a peon for each work Inspector

The Dy. Commr of Bangalore Distt considers Rs 10/- as the reasonable horse allowance. He is also

convinced of the necessity for a
peon to each work Inspector
but cannot see his way to
make provision for the addl
cost unless the Govt raise
the per centage of the cost of
establishment from 10 to 12½
which compares very favorably
with the per centage of 17½ allowed
in the P.W. Department. He
further considers that there
is very little encouragement
for the energetic and fearless
taking work Inspectors if their
scale of pay should be uniform;
and suggests therefore that
two different scales may
be adopted, one carrying
Rs 20+10 and the other 15+10

The Dy: Commissioners of
the Tumkur, Mysore, Shimoga
and Chitaldrug Districts agree,
in the main, with the Dy: Commr

51

of the Bangalore District
Only the Dy: Commissioners
of the 1st three Districts consider
Rs 7/- as sufficient to maintain
a horse and in the opinion
of the Chitaldrug Dy Commr
Rs 6/- is enough.

The Dy: Commissioners
of Kadur and Shimoga
suggest that the pay of
these work Inspectors should
be made progressive by
giving them an increment
of one rupee annually; only
the former considers that
they should start with Rs 25
and the latter - Rs 20/-

The Municipal Board
of Kolar ~~[illegible]~~
hold that the scale of pay
should be uniformly fixed
at Rs 15-7. But the President

Mr Sparkes differs from the majority and considers Rs 25+7 as the reasonable remuneration.

As regards peons for these work Inspectors, all except the Dy: Commr of Tumkur + Kolar see the necessity for that item. Except the Dy: Commr of the Kaira District who wishes to pay Rs 8/- for each peon, all propose to pay them at Rs 6/- each per mensem.

The Dy: Commr of Hassan proposes a separate scale for his District. He wishes to have 4 diff: scales as detailed in the margin clubbing two Talukhs in certain cases under the supervision of one work Inspector. Omit the

I	35+15	Hassan & Alur Tks.
II	25+15	Manjarabad & Belur
III	25+10	Arakalgud & H.N. Pur
IV	20+10	Channarayapatna
	20+10	Araikere

the majority are not in favour of this arrangement of clubbing two or more Taluks under the supervision of single Work Inspector

If this temporary establishment has to be kept on permanently a question has to be decided as to whether a portion of the cost ~~of establishment~~ should not be debited to Provincial Funds inasmuch as these Inspectors are every now and then called upon to supervise works sanctioned from Municipal Funds

Submitted for orders with a statement showing the establishment as now existing and in the several P.W. circles and as proposed by the Presidents.

Head

From my experience of the districts, I am of opinion that Work-Inspectors are necessary, one for each Taluk or Sub-Taluk. They prepare the estimates, supervise the work and are helpful in other ways. In very many places, the wells and other works constructed have proved disappointing subsequently and in the absence of Work Inspectors without anybody being called to account, the revenue Officials shielding themselves behind the excuse of ignorance of technical details. There may be two grades one on Rs 15 and the other on Rs 20 per month with a horse allowance of Rs 8 in each case. These men may be such as will be fit

to be circle Inspectors.
A peon on Rs 6 appears
to be necessary as they
have their pays of
Rs 5 & Rs 4 respectively
& peon will spend
over the whole Taluk
and they have to deal
with contractors,
workmen and others.
Before the scheme
is finally sanctioned
immediate orders
are necessary for their
being retained until
further to enable the
Comptroller to admit
their pay

The Presidents Bangalore, Shimoga and Kolar solicit orders for the permanent retention of the Work Inspectors while the Presidents of the Mysore Dist & reports

that orders have been issued to the Amildars to continue the existing establishments will continue till the issue of final orders of Govt. The President of the Tanjore Dist requests that the existing establishment may be continued for another period of six months pending final orders. The President of the Kadur Dist says that the services of the Work Inspr of the Chikmagalur Taluk may be dispensed with being unnecessary, and requests that the establishment entertained for the Kadur and Tarikere Taluks may be made permanent

As nothing has yet been definitely settled by Govt, on the Shakdar's scheme under their consideration, a draft order sanctioning the continuance of the existing establishments, except for the Chikmagalur Taluk, till the end of July December 1902

Office Note

Letter no 1453 dy 19-6-03 from the President of the L.F. Board, Bangalore Circle, stating that orders have been issued to the Amildars ~~of Talugs~~ directing to relieve the Work Inspectors attached to their Talugs on the 30th June 1903.

— " —

In Govt. Pro no 12014-21 / 17.320-96 dy 18-2-96, the existing arrangements in regard to Work Inspectors were ordered to be continued till the end of June 1903, with the observation that the cost of establishment should be kept within the prescribed limit calculated upon the cost of Works Viz. 10 p.c The President has therefore ordered each Amildar ~~his~~ ~~his~~ to relieve the Work Inspector attached to his Talug, on the 30th June 1903.

The office draft sanctioning the retention of these subordinates during the ensuing year or till further orders is now before the Dewan with the Councellor's opinion submitted. The draft was passed yesterday

Para 1 of G.P. No 2448-57/L.F 320-96 d 20.8.02 calling for explanation as to why the Supervision charges on D.F. L.F. Gl. and Rel Works were allowed to exceed 10% of the cost of works in 1900-1901

Note.

The Cost of Supervision charges on the above mentioned works exceeded 10% of the Cost of Works in the following Districts as shewn against them

	Excess over 10 %
1. Bangalore District	6.86
2 Kolar District	1.28
3. Hassan District	7.23
4. Shimoga District	9.16
5. Kadur District	1.61

The Presidents concerned were requested ~~to explain~~ to submit their explanations

of the Kolar Dy. Circle states that
it was due to bills for works 1, 369 d 5-10-02 (S1 4)
executed having been received
after the close of the official year.
So also the President of the Shimoga 7 No 1196 d 20-11-02 (S1 7)
Circle who also adds that, as the
work Inspectors are paid fixed pay,
it is not practicable to limit the
supervision charges to 10% of
the cost of works, but that
every effort will be made to see
that the work turned out by these
work Inspectors bears a fair ratio
to their emoluments The President
of the Kadur Circle does not explain (S1 6)
why the Supervision charge
exceeded the prescribed limit in 1900-01
but states that the same for the
three years from 1898-99 to 1900-01
put together was less than 10%
He also adds that Supervision charge
has far exceeded 10% in 1901-02
owing to the prevalence of the Plague
in several Taluks in the Kadur Dist
Lastly the President of the Hassan 7 No 1142 d 11-11-02
Circle explains that the excess was (S1 8)
due to the following causes.

41

(i) The finances of the Hassan D.B. being very poor they allow of works being undertaken to a small extent only

(ii) the grant of funds from the L.F.G. for rural sanitation has been either received too late or withheld by Govt in recent years.

(iii) Some well works have recently brought to a standstill owing to rocks having been met with in their beds.

(iv) According to the practice prevailing in the Hassan Distt, no outlay is incurred from the L.F.G. before the raiyats complete earth work which they delay in doing; and

(v) Owing to poverty of funds the allotments under "VIII Public Works" had to be retrenched in some Taluks while in some others they had, owing to the prevalence of the Plague, to be appropriated for the payment of compensation for the acquisition of houses and lands for sanitary improvements

Remark A

2 The President of the Bangalore L.F. Circle states that one work

Work Inspector for two Taluks would be sufficient, the Work Inspectors looking after the duties of each Taluk, one after another for a month by turns.

3. The President of the Hassan L.B. Circle states that he does away the Work Inspector of the Manjarabad Taluk and employs him on some other work, and dispenses with the services of the Work Inspector of the Holenarasipur Taluk, probably, to keep the Supervision charge as low as possible.

LOCAL BOARDS BRANCH, MUNICIPAL AND LOCAL FUNDS

PROCEEDINGS

Dated 15th September 1899

No. 3641-9
L.F. 320-96

Requesting the Deputy Commissioners to submit definite proposals regarding the retention of the Work Inspectors employed for the supervision of works undertaken by the Revenue Department from District and Municipal Funds.

Proceedings of the Government of Mysore, Local Boards Branch Municipal and Local Funds, dated 15th September 1899.

No. 3641-9—L. F. 320-96, DATED BANGALORE, 15TH SEPTEMBER 1899.

ORDER.—The term of appointment of the Work Inspectors employed for the supervision of works undertaken by the Revenue Department from District and Municipal Funds, sanctioned tentatively for one year in Proceedings No. 13938-46—L. F. 320-96, dated 30th June 1897, and extended by subsequent Proceedings of Government, was to come to an end at the close of the past official year, the Government considered it desirable to consult the Deputy Commissioners of Districts before passing orders on the general question of the retention of the establishment referred to.

2. It is observed that the temporary establishment has now been in existence for two years and, it is expected that the Deputy Commissioners will now be able to make definite proposals regarding the retention of the establishment and the scale of salaries that may be given to the required staff. Their attention is accordingly invited to Proceedings No. 13938-46—L. F. 320-96, dated 30th June 1897, referred to above, and they are requested to submit their reports with definite proposals as called for in para 1 thereof.

3. The Government are, in the meanwhile, pleased to sanction the continuance of the existing establishments for the several districts for another year pending the issue of final orders on the subject.

Sir,

Adverting to Government Proceedings No: 7043-4 / 7320-96 dated the 7th December 1898, sanctioning, tentatively for one year, the entertainment of work Inspectors for the supervision of Public works executed through revenue agency, and Government Proceedings No: 3415-6 / 7320-96 dated the 14th September 1897 approving of the proposal to entertain work Inspectors on a salary of Rs 15 + 10, horse allowance, I have the honor to request that, as the period of one year sanctioned in the first of the Proceedings above referred to, expired on the 30th June last, sanction may be accorded to the permanent retention of the establishment mentioned above.

2. I beg to invite your attention to this office letters nos 206 dated the 13th August 1897 and 315 dated the 3rd September 1897, stating that the cost of establishment could be kept within 10 per cent of the cost of works

works of the work-inspectors were paid a salary of Rs. Rees 15 + 10 house allowance

3 I further beg to state, that the permanent retention of the establishment is absolutely necessary, as there is a good deal of work every year to be carried out from the municipal Funds, District Fund and the Local Funds General

Comparison and reference

2 —— Up to the present time, under the supervision of this Department, works under Municipal Funds, District Funds and Local Fund's General have been executed at an outlay of upward of Rs 25000 and although the Local Funds General Grant has since been withheld by Government for original works, yet it is posture expected that under the former two funds alone works costing Rs 25000 at the least will have to be carried out in this District annually.

3 —— The Cost of the whole establishment per year as proposed herein is however, only Rs 2292 being only 16% upon the estimated annual

record of income and have
a vision that this is necessary
keeping on a permanent basis
for the effectual carrying out of
works in this Department:-

It is enough if there
should be one Work Inspector
for the Malwad Taluks of Sagara
Sad and Kelur as much work
is not expected to be carried out
there. —

5 Arkalgud and its —
neighbouring small Taluk of

ently supervised by one Work
Inspector, while it is necessary
have distinct Work Inspectors
for each of the large and busy
Taluks of Arsikere and Channa-
rayapatna.

6.

individual Work Inspector; and under proper conditions therefor and gradually well regulated Contra- t may be hoped that with this cheap agency substantial work can be carried out and the saving under establishment and other charges will be a matter of the highest Concern to this District especially when it is remembered that with the very high rate of the Public Works Department establish- -ment charge viz. 17½% already to about Rs 10,000 a year, the District funds are considerably drained regard being had to the actual balance at its credit the annual receipts and the growing permanent charges

9 —— With regard to the esta- blishment of Work Inspectors sanctioned

sanctioned temporarily or one
year under Government Pro-
ceedings above referred to, I beg to
state that they have been retained
in their respective Talukas up to
date with a view to push on the
incomplete works of previous
years and since they and their
sons have not received their
salaries for the past two months,
reports are being daily received
from them in this matter

10 — In Consideration of the
general smallness of their pay
and the necessity of their maintain-
ing a house and of the utter

to them, I beg that pending your

D. No 492 Dist. Fund Board Presidents Vice

Enc: 1 Bangalore, 4th December 1899.

To The Secretary to the Government of Mysore General & Revenue Depts.

Sir-

Adverting to Government Proceedings No 3641-9 dated the 2-2320-96 15th September 1899, calling for definite proposals on the question of permanently employing Work Inspectors for the supervision of works carried out by Revenue Officers, I have the honor to enclose herein a statement shewing the expenditure incurred during the past three years from 1896-97 to 1898-99 on works executed from the District Funds, Local Funds General and the Municipal Funds. From this it will be seen that on an average, works amounting to Rs 29,556 or Rs. 30,000 in round numbers can be carried out in a year. Now,

if the 10 per cent limit emphasized in Government Proceedings N. 1398-46 x.+320 96 dated the 30th June 1897 is to be adhered to the cost of establishment cannot exceed Rs 3000/- per annum or Rs 250/- per mensem, and accordingly the scale of salary viz. Rs. 15+10 horse allowance recommended by my predecessor and sanctioned tentatively in Proceedings N. 3415-6 x.+320.96 dated the 14th September 1897 should only be kept up But in my opinion there is in this scale as little encouragement as there is incentive for the energetic and pain taking Work Inspectors, chiefly on account of its uniformity I would therefore with a view to secure efficiency and honesty in the work turned out by the Work Inspectors, propose for the consideration of Government 2 scales in their salaries viz:-

20+10 horse allowance 1st Class
15+10 —— do —— 2nd Class

2 There will be on this scale 4 first class and 6 second class Work Inspectors at a cost amounting to Rs 270/. every month. This will, I admit, exceed the annual cost of establishment calculated above by a small amount viz. Rs 240/-; but I would stretch a point in the case of these hard worked officials and do not desire that they should get hereafter a less salary than what they are getting now.

3 Of course, the promotions in future from one grade to the other will be according to vacancies and the merit of the Work Inspector

4. Although I am convinced of the necessity of a person for each work Inspector judging from the nature and importance

Sir,

In reply to the Government Memorandum
No. 3641-7 / 7.320.26 requesting me to submit
proposals regarding the retention of Mr. Inspectors,
I have the honor to inform you that the
question before the Council [illegible] the matter
was discussed on Monday the 11th instant with the
result that the Board were of opinion that
the Mr. Inspectors should be kept on being
allowed to each Valley but that the pay should
be uniform throughout viz 15/- per month
with an allowance of 7/- and no more.

I regret I beg to differ with the
opinion of the Board and I think it would
be better to employ one good man on better
pay for two Ranges than one and two
each Valley as previously for the reason
cannot always be depended upon. I would
therefore beg to propose the retention of
Mr. Inspectors on a pay of —

Rs 25 + 7 each amounting to Rs 160 per mensem instead of 10 on Rs 15 + 7 amounting to Rs 220 per mensem. I would further propose that these men be located at certain centres viz 3 at Kolar and 2 at Chickballapur and be sent out as occasion requires and while at Head Quarters be employed in the office.

I make this proposal as I am of opinion that district Fund Work should be curtailed to a great extent, as I believe there be no necessity to build more Musjids. - Kanas or wells in the district, in the event of the latter the villagers must come forward and show their necessity by first showing water or in other words do the earth work when pot rings can be put down at a small expense, Something of this sort I consider to be necessary as I have noticed in many places ryots refusing to use wells which have been built at a large expense by the district or Local Funds and which proves that they are not actually required. If thus these two major works are stopped there remains very little for these work

inspectors to do as such items as village sanitation
in he and ought to be supervised by the Rural Boards themselves
the money was raised on Rural works should in my opinion
placed at the disposal of the D.C. W for the upkeep of
existing roads which badly require more attention than
they get at present.

Sir,

With reference to my no: 3041-7 / C.#320-96
of the 15th September 1899, calling for the
definite proposals regarding the re-
tention of work-shop clerks, I have
the honour to state that the tempo-
-rary establishment has been in
existance for the last two and half
years, during which time I find
that the works undertaken by the

Revenue

Revenue department have been better managed than previously. The large lapses out of the sanctioned allotments which were occurring year after year were considerably reduced. The sanctioned works are being carried out on the same principle as in the P. W. department. The work being measured in proper time Contractors are paid without giving room for complaint as regards delay in payment &c. Under the above circumstances I consider it quite necessary to retain the present establishment

establishment with slight modifica-
-tion on a permanent footing for
the supervision of works carried
out by the Revenue department
2. I therefore beg to submit here-
-with a statement showing the ex-
-penditure on works, from district
Municipal and Local funds
during the last two years 1897-98 &
1898-99, from which it will be seen
that the average expenditure for the
said period is Rs 34,591 and
from a forecast of the District + and
Municipal budgets, it is consider
-ed

herewith submitted

3. In conclusion I beg to add that the services of work-inspectors are not only utilized for the supervision of works undertaken from municipal and district funds but also anuzarai works, for which no separate establishment exists.

4 I therefore request that you will be so good as to obtain early orders of Government on my proposal

5. A separate communication will be submitted with regard to the

The President of the Local Fund Boards of the Mysore District.

The Secretary to the Govt of Mysore Revenue and General Departments.

Sir,

Continuation of my letter no: 753 of the 8 February 1900, submitting proposals for the retention of work Inspectors on a permanent footing, I have the honor to state that the term of their retention expired on the 1st July 1900. (vide G.O. No 3041-9 R. F 320-96 of the 15th September 1879). The value of the works supervised by them from District, Local and Municipal funds comes to Rs 28,218 as will be seen from the enclosed statement. But the amount spent on account of their

Sir

Adverting to Government Proceedings
no. 3641-4 dated 15th September 1899 and no:
F. 7. 320 96
2365-73 dated 17th August 1900 regarding the
F. 7 320-96
retention of Work Inspectors for the supervision
of works undertaken by the Revenue Depart-
ment from District and Municipal Funds,
I have the honor to submit that nine temporary
Work Inspectors have been employed in this
District during the past three years for the
supervision of Local Fund and Municipal
Works on a uniform Salary of Rupees 15
with a horse allowance of Rupees 5 per men-
sem, at the rate of one for each Taluk,
the ninth man being attached to the Kottagere
Sub Taluk. The Inspectors were [illegible]

Inspectors have been so regulated as not to ex
ceed 10 per cent of the cost of works executed under
their supervision.

2. The Inspectors have proved to be very use-
ful assistants to Amildars in preparing
Estimates for petty works, in supervising them
when under execution and in measuring them
up when completed. In Addition to the District
Fund and Municipal works, there are works
undertaken from grants made from Local Funds
General and from Muzrai Funds, which are
also entrusted to Work Inspectors, whose duties
are similar to those of the Taluk masters
employed under the Executive Engineer in respect
of District Fund works carried out by the
Public Works Department.

3 I would therefore recommend the retention
of the Work Inspectors permanently. They may be
of two classes with a salary of Rupees 15 and 20
respectively and a horse allowance of Rupees 5
(seven) per mensem. If there be a large number of
works in any Taluk, two Inspectors may be
employed. This arrangement should always
be subject to the condition that the cost shall
not exceed 10 per cent of the actual outlay
incurred

incurred on the works executed.

4. I submit herewith a statement showing the probable annual expenditure on District Fund and Municipal works carried out by the Revenue Department in the several Talukas and sub Talukas of this District. The statement does not include the works sanctioned from Local Funds General. It will be seen that the expenditure in the sub Talukas does not justify the employment of a separate Work Inspector for each of them. They may therefore be included in the charge of the Inspectors of the Talukas to which they are attached. As regards the Sira and Pavagada Talukas which cannot conveniently be attached on to the charge of the Inspector of any of the neighbouring Talukas, temporary Inspectors may be employed and paid at the rate of 10 per cent on the cost of the works executed. For the remaining Talukas, I beg to recommend that permanent Work Inspectors may be retained on salaries noted below:—

Sir,

With reference to Government Order No. 10093-101 of the 8th February 1901, sanctioning the continuance of the existing establishments of Work Inspectors till the end of December 1901, I have the honor to state as follows.

2. There are at present three Work Inspectors employed on a salary of ~~Rs~~ 25 + 10, rising in five years to ~~Rs~~ 30 + 10, with a peon on ~~Rs~~ 8/- for each of the Taluks of Chikmagalur, and ~~one~~ Tarikere of this District to supervise all works carried out of Municipal and District Funds and Local Funds General in the Taluks of Kadur and Tarikere and only works carried out of District & Local Funds in the Taluk of Chikmagalur.

3. As there are at present no funds available out of District Funds and Local Funds General for works in the Chikmagalur Taluk, and as the works carried out by the Chikmagalur Municipality are supervised by its own staff and not by the work Inspector, there is, at present, no need for a permanent work Inspector for the Taluk of Chikmagalur. But, when funds permit for works being carried out of District Funds or Local Funds General in the Chikmagalur Taluk, the necessary temporary supervision establishment will then be maintained, so as not to exceed the limit of 10% outlay

4. But, as regards the Taluks of Tarikere and Kadur, I beg to state that the Taluk of Kadur includes three Municipalities, Sakrepatna, Kadur and Birur, two of which are very important and populous; while the Taluk of Tarikere has two important Municipalities, viz, Tarikere & Ajjampur, where there are always very many Sanitary and other fresh works to be carried out, though works sanctioned out of District Funds and Local Funds General are only in complete works

of

of past years, there being no funds for fresh works. All these works, as per particulars given in the statement appended are at present supervised by the work Inspectors of the Taluks concerned and as such their impermanent retention on their present salaries as per Government Order no 12058/L4.320-96 dated the 24th April 1899 is considered necessary.

Under these circumstances, I submit the matter for favorable consideration of Government.

Sir,

With reference to Government order No. 1309-8 & 7320-96 dated 7th February 1902, sanctioning the retention of Work-Inspectors till the end of June 1902, I have the honor to invite your kind attention to this office letter No. 763 of the 8th February 1900, in which proposals for making the establishment permanent have been submitted, and to state that pending final orders thereon the existing temporary establishment will be kept on. I request that Government may be pleased to instruct the Comptroller to order the disbursement of pay to the temporary establishment.

No. 377 Office of the President, Local Fund Board,
French Rocks, dated 12th June 1902.

To,

H. V. Nanjundiah. Esquire, M.A, M.L,
Secretary to the Government of Mysore,
General and Revenue departments
through the deputy Commissioner,
Mysore district,

Sir,

Referring to Government Proceedings No. 10093-101/L-7320-96 and 16443-4/L-7320-96 dated 8th February 1901 and 7th April 1902 respectively, sanctioning the continuance of the Work Inspectors' Establishment till the end of the current official year, I have the honor to state, that the services of these Work Inspectors are absolutely necessary for the proper supervision of the Local Fund and Municipal Works The necessity for the permanent retention of the said Work Inspectors will be evident from the resolution of the Board passed in their meeting of the 21st January 1900 proposing the appointment of a Work Inspector for every Taluk on a salary of Rupees 15/- per

per mensem as a permanent measure, and this office letter No. 248 dated 12th February 1900 soliciting Government Sanction for the same.

At present there are three Work Inspectors for this circle including the one recently sanctioned, each drawing a pay and allowance of Rupees 16+5, and as the Sub division contains 5 Talukks, and one Sub Talukk, each Inspector has been supervising the works of two Talukks. It will thus be seen that the existing number of Inspectors being hardly sufficient to cope with the work, it is not likely to suffer reduction and its permanent retention follows as a matter of course. Instead of sanctioning the appointments of these Inspectors from year to year as at present which necessitates the submission of an application from this office every year for permission to keep the Inspectors for another year, it would be more convenient if their permanent retention were sanctioned. Another difficulty arising from the present yearly sanction is that such sanction is usually received sometime after the commencement of the new year

and

and the Inspectors have consequently to wai
2 or 3 months to draw their pay

In the above circumstances I beg that you will kindly obtain early orders of Government for the retention of the existing number of Inspectors until the proposal to appoint an Inspector for each Taluk is finally dis-posed of by Government

I have the honor to be

Sir,

Adverting to Government Proceedings No. 2448 57 L. R. 320-96. Dated 20th August 1902, requesting the return of Work Inspection up to end of December 1902 and calling upon the Presidents of the District Road Boards to explain why the sanctioned charges have exceeded the receipts during the year 1900-01, I have the honor to state as follows:-

These are for...

6— The outbreak of plague in the District necessitated the acquisition of houses and lands for sanitary purposes and a great deal of budget allotment such as in the case of Hassan Town was appropriated in payment of Compensation for the same. Some municipalities such as Chennarayapatna, Grama, Banavar, Arsikere had so small a balance at their credit that retrenchment of the Budget allotment under the head VIII P. W. was found necessary to contribute for payment of Compensation :—

7— Owing to the above causes chiefly, the cost of supervision exceeded 10 per cent in this District. It is true that if two or three hands had been thrown out the cost would not have exceeded the limits, but it seemed wise in the practical working that such a step would

have caused the men to a great deal of hardship & a system of throwing out and re-employment whenever necessary leaves them no free season while the work turned out would be still less than at present. Indeed during the past one or two years, the Government have been pleased to extend the period of their retention every six months and this itself, I understand seems to be some what discouraging to them as one cannot be expected to do satisfactory work at a time when it is possible he may be removed at the next moment.—

8 In their present circumstances, the establishment as sanctioned by me in anticipation of sanction to my proposals to give a certain definite staff of Work respectables though smaller in number and if this was wrong I beg to be excused

With regard to the remaining

will be made to see that the
work turned out by them bears
a fair ratio to their emolument

I have the honour to be,
Sir,
Your most obedient servant
W Mattamuggett

total amount sanctioned by me out of the funds placed at my disposal from Municipal and District Funds and Local Funds General during the year 1900-1901 aggregated Rs 32,019-0-0 Of this a sum of 3934 rupees was on account of estimates sanctioned in May or June 1901 which could not be worked out on account of late sanction and a further sum of 5212 rupees was on account of meeting hard rock in wells, scarcity of Contractors etc The net amount that could have been expended during the year was therefore rupees 22,873. Of this a sum of rupees 13673 or nearly 60 per cent was the cost of works executed during the year 1900-1901 as per Government Proceedings referred to above. The actual cost was however much more than this for many of the works which were executed during the year and for which measurement bills were

submitted were not paid for on the ground that the bills were received in this Office after the 30th June 1901. Taking these facts into consideration the work done by the Work Inspectors, though not up to the standard, cannot be said to be quite un satisfactory.

2. Adverting to the Government order that the supervision charges should not exceed ten per cent of the cost of works. I beg to invite your attention to my letter No. $\frac{540}{42}$ dated 14th December 1899 wherein the impracticability of the above order has been pointed out. The Work Inspectors were not entertained on the understanding that their pay would be limited to ten per cent of the cost of works supervised by them. On the other hand they are being paid fixed salaries varying from 15 to 20 rupees a month. Every effort

During the year 1900-1901 the Supervision charges on Drainage and Irrl, D.F. and L.F. & Works in excess of 10% of the Expenditure incurred on them in the Bangalore, Kolar, Hassan Shimoga and Kadur Dists the Presidents concerned

were asked in Govt
Proc No 21118-57 & the
L/H 320-96
20th Sept 1902 to explain
charges were incurred
how the excess ~~was passed~~
and why the same should not be recovered. &c.
~~The letters read above~~
are ~~the~~ in ~~reply~~ submitted item exhibited.

2. The President of the
Bangalore L/H Circle
explains that the excess
was due to the fixed pay
that was and is being
allowed to the Work
Inspectors and to the
low expenditure on works,
while the President of
the Kolar L/H Circle states
that it was due to bills
for works executed having
been received after the
close of the official year,
So also the President
of the Shimoga L/H Circle states
~~that~~ that, as the
Work Inspectors are
paid fixed pay, it is
not practicable to limit

the Supervision charges
to 10% of the works and
that every effort will be
made to see that the Work
turned out by these Work
Inspectors bears a fair
ratio to their emoluments
The President of the Kadiri
L.B. Circle does not explain
why the Supervision charge
exceeded the prescribed
limit in 1900-1901 but
states that the same for
the three years from 1898-9
to 1900-1901 put together
was less than 10% He
also adds that Supervision
charge has far exceeded
10% in 1901-1902 owing
to the prevalence of the
Plague in several Taluks
in the Kadiri District
Lastly the President of
the Hassan L.B. Circle
explains that the excess
was due to the poor

finances of the R.S. Bd,
to the withholding of grants
or to the late Sanction
accorded by Govt to the
grant of funds from
L.F.Gl for Surface
Sanitation, & well-
works being brought
to a standstill during
4 weeks in the beds
of wells, & the delay
caused by engineers in
executing certain ~~the~~
work & certain works,
and to the provisions
for works in certain
municipalities having
been appropriated for
the payment of Compen-
sation for the acqui-
sition of certain properties
in them for effecting
Sanitary improvements
as a plague preventive
measure

3. The President of the Bangalore L.B. Circle states that one Work Inspector for two Taluks would be insufficient, the Work Inspectors looking after the duties of each Taluk one after another for a month by turns

4. The President of the Hassan L.B. Circle states that he drew away the Work Inspector of the Nuggihabad Taluk and employed him on some other work and dispensed with the services of the Work Inspector attached to the Hole-Narsipur Taluk probably to keep the Supervision charges as low as possible

5. The arrangement proposed by the Presd. of

the Bangalore Service is not likely to work satisfactorily, if the existing arrangements may be allowed to continue till the General question relating to the retention of the Work Inspectors after the 30th June 1903 is decided by Govt.

5. The correspondence read above is recorded with reference to Govt Proc No 9682-91 / LR 370-96 of the 9th Dec 1902 and with the observation that the existing arrangements may continue till the end of June 1903, and that as soon as possible the cost of establishment should be kept within the prescribed limit

^ as the arrangement proposed by the Dy Comr of Bangalore is not likely to work satisfactorily.

No. 12014-21—L. F. 320-96, DATED BANGALORE, 18TH FEBRUARY 1903.

ORDER THEREON.—During the year 1900-01 the supervision charges on Municipal, District Fund and Local Funds General works undertaken by the Revenue Department exceeded 10 % of the expenditure incurred on them in the Bangalore, Kolar, Hassan, Shimoga and Kadur Districts, and the Presidents concerned, who were asked in Government Proceedings No. 2448-57—L. F. 320-96, dated the 20th August 1902, to explain why the excess charges were incurred and why the same should not be recovered, have submitted their explanations.

2. The President of the Bangalore Local Fund Circle explains that the excess was due to the fixed pay that was and is being allowed to the Work Inspectors and to the low expenditure on works, while the President of the Kolar Local Fund Circle states that it was due to bills for works executed having been received after the close of the official year; so also the President of the Shimoga Local Fund Circle states that, as the Work Inspectors are paid fixed pay, it is not practicable to limit the supervision charges to 10 % of the works and that every effort will be made to see that the work turned out by these Work Inspectors bears a fair ratio to their emoluments. The President of the Kadur Local Fund Circle does not explain why the supervision charge exceeded the prescribed limit in 1900-01, but states that the same for the three years from 1898-99 to 1900-01 put together was less than 10 %. He also adds that supervision charge has far exceeded 10 % in 1901-02 owing to the prevalence of the plague in several taluks in the Kadur District. Lastly the President of the Hassan Local Fund Circle explains that the excess was due to the poor finances of the District Fund Board, to the withholding of grants or to the late sanction accorded by Government to the grant of Funds from Local Funds General for rural sanitation, to well works being brought to a stand-still owing to rocks in the beds of wells, to the delay caused by raiyats in executing earthwork to certain works, and to the provisions for works in certain Municipalities having been appropriated for the payment of compensation for the acquisition of certain properties in them for effecting sanitary improvements as a plague preventive measure.

3. The President of the Bangalore Local Fund Circle states that one Work Inspector for two taluks would be sufficient, the Work Inspectors looking after the duties of each taluk one after another for a month by turns.

4. The President of the Hassan Local Fund Circle states that he drew away the Work Inspector of the Manjarabad Taluk and employed him on some other work, and dispensed with the services of the Work Inspector attached to the Hole-Narsipur Taluk, probably to keep the supervision charges as low as possible.

5. The correspondence read above is recorded with reference to Government Proceedings No. 9682-91—L.
